US Patient Thanks Indian Surgeon After Her Three Joint Surgeries

Ms. Sharon from California USA talks about her excellent experience after a complex Simultaneous Bilateral Knee Joint Replacement Surgery at Wockhardt Hospital, Bangalore

/24-7PressRelease/ - MUMBAI, INDIA, May 08, 2008 - Sharon, 59 from California, who was a very good baseball player, was searching about the prosthesis of hip socket ball. Yes, she was learning more about the surgery advised to her - Hip resurfacing.

Sharon, while listening to 60 minutes heard about medical tourism and then started to search for the hospitals in Thailand, Philippines, UK and India , which can offer her hip resurfacing surgery. All what she wanted was an experienced surgeon with high success rate and other patients' experiences. Her search got over when she read about Dr. Malhan, Sr. Joint Replacement Surgeon at Wockhardt Hospitals India. The surgeon who had performed more than 500 such surgeries. Impressed with doctor's credentials and patients' testimonials , she decided to fly to India to get the surgery done.

The surgery went off very well and Sharon recovered pretty soon. She was very delighted with the quality of care , surgeon's skills and the kindness of the staff.

6 months later when her knees ravaged she wrote to Wockhardt expressing her desire to come back for Bi-lateral knee replacement surgery. All the arrangements were made quickly and Sharon came to India.

Though this time the stay was longer than the first visit but Sharon never felt alone as she got friends with so many other patients from US. Actually Sharon was enjoying her stay , the group therapy, shopping, dinning which she use to do along with her new friends from West.

Among so many Americans she felt as if there was a mini US in Wockhardt.

At Wockhardt Sharon, ventured out of the cocoon of the ordinary and care provided by them made her explore the realm of the extraordinary, as if she landed in the oasis of enlightenment.

See what she has to say at her farewell:

" It is going to be new chapter and a new life for me. I will be grateful for the kindness, skill , efficiency and the variables that went in giving me the best treatment, A no1 first class treatment that has put me where I am today."

You can watch a video of Brad talking about his experience on the Wockhardt Channel on Youtube.com - weblink below <http://www.youtube.com/watch?v=EoFyde5LK8M>

Wockhardt hospitals Group. has partnered with Harvard Medical International (HMI), Boston, USA, in establishing a chain of super specialty hospitals across India.
