Indian Real Estate Developers targeting NRIs in Dallas and Seattle

Indian properties at showcase by reliable and trusted Indian Real Estate Developers. INDIA Real Estate Expo 2008 is showcasing residential and commercial properties in Dallas, TX & Seattle, WA. Expo begins on May 31st 2008, and ends on June 8th 2008.

/24-7PressRelease/ - LAS VEGAS, NV, May 09, 2008 - Horizon Expo recently announced the debut of INDIA Real Estate Expo '08 in DALLAS & SEATTLE. India is reckoned as one of the fastest growing economies of the world and owing to its inherent advantages of a large consumer base, raw material resources, world class manufacturing capabilities, competitively priced talent base, a comprehensive legal & tax system and a strong operating financial system has become a preferred investment and business destination. Real estate, a "sunshine industry" in India, is flourishing rapidly, propelled by strong demand drivers and significant transformations such as deregulation of the sector, increasing transparency and professionalism, improved product quality and service standards etc.

Availability of housing loans to Non Resident Indians (NRIs) has impelled property investment in India. Reserve Bank of India (RBI) has reported that inward foreign remittance has grown 3 folds in last couple of years, and majority of these funds have been used to buy immovable property in India.

In the midst of all the available property investment options in India, it becomes an extremely difficult task for an overseas investor to perform a due-diligence to find a reliable investment opportunity. Recognizing this particular issue, Horizon Expo LLC, a value-added licensed entity in USA, has announced its 3rd edition of INDIA - Real Estate Expo '08. This exhibition would bring home buyers and real estate developers under one roof, providing the necessary platform to perform a proper due-diligence before making a life-saving worth of investment. Real Estate Developers from Major Indian Cities like Delhi, Bangalore, Mumbai, Pune, Chennai, Hyderabad and Punjab would be showcasing residential, commercial & retail projects at the exhibition.

This would be the third Indian property exhibition that Horizon Expo would organize in United States. Its previous exhibitions held in year 2007 have helped numerous home buyers from San Jose, Los Angeles, New York and New Jersey. FIA has thrice awarded Horizon Expo LLC with Excellence in NRI Real Estate Services. Bangalore's top property developer, "MANTRI DEVELOPERS" is platinum sponsor of the exhibition, a Delhi based realty major, OMAXE is a Gold Sponsor, showcasing an upscale residential condominium project in Ludhiana, Punjab

Some new and much secure investment options are also being introduced at the exhibition. For instance, Mantri Developers is offering a scheme at the exhibition to book with 10% down and no further payment and/or interest until the possession, such purchase options provide a significant level of security and comfort to the prospective home buyer, making the due-diligence a piece of cake. On the finance side, majority of the displayed projects would be backed by 85% bank financing offered by most of the nation top banks, such as HDFC, ICICI, Citibank, SBI, AXIS Bank etc.

To further assist home buyers, pre-registration discounts are being offered by many participating real estate developers. Interested parties can find information about the India property show at organizers website: www.HorizonExpo.net
