**Novastor To Speak at Fispa Members Meeting at Ispcon**

*NovaStor, a leading provider of software solutions for data availability and protection, announced today that its Director of Service Provider Sales would be speaking at FISPA's Members Meeting at ISPCON, May 13 15, in Chicago at the Donald E. Stephens (Rosemont) Convention Center.*

**/24-7PressRelease/** - SIMI VALLEY, CA, May 10, 2008 -- Jon Calmes, NovaStor's Director of Service Provider Sales, will be speaking at the Federation of Internet Solution Providers of the Americas (FISPA) Members Meeting. Mr. Calmes will be presenting Innovations in Online Backup. The presentation will review innovative ways service providers can add new revenue to their business.

NovaStor has been supporting thousands of service provider partners over the last decade with solutions targeted at generating additional revenues from their core customer base. NovaStor is recognized as an innovative pioneer and plans to continue blazing new trails with their upcoming product releases. This presentation will provide attendees with a sneak peek of NovaStor's upcoming technology and is targeted at any service provider interested in discovering new opportunities to expand their service reach and revenue potential.

ISPCON, sponsored by Jupitermedia Corporation, is a bi-annual (Spring & Fall) conference and trade show dedicated to helping service providers and their businesses. The event features industry experts discussing the latest in managed services and SaaS.

The FISPA Members Meeting will be held on Tuesday, May 13th at 6:30 p.m.

FISPA will be hosting NovaStor in its booth at ISPCON, booth #224
