REtaliatE Against Wrinkles the Arbonne Way

A wrinkle fighting skincare product that hits the problem areas with exact precision.

NurtriMinC RE9 REtaliatE Wrinkle Filler.

/24-7PressRelease/ - LONDON, UK, May 13, 2008 - While most anti-wrinkle fighting skincare products require a messy application process that covers beyond the area you might be concerned with, Arbonne International has developed a wrinkle fighting skincare product that hits the problem areas with exact precision.

Arbonne's NutriMinC RE9 RetaliatE Wrinkle Filler resembles a pencil. Wherever you notice fine lines and wrinkles on your face, you can fill them in precisely where the product is needed. This unique packaging makes using the product quick, easy, and waste-free. It is also very convenient for on-the-go applications.

Many skincare products promise fast results for reversing the aging process or reducing the appearance of fine lines and wrinkles. Arbonne's NutriMinC RE9 RetaliatE Wrinkle Filler not only does this, but does it with the added benefit of pure ingredients that are **hypoallergenic** and **fragrance-free**. Their products are pure vegan and never tested on animals, so you can feel good about your decision to use Arbonne products.

Combined with an Arbonne skincare regimen tailored to your individual needs, it is a must-have product to fight the ageing process. Compared to painful and expensive injectible dermal filler procedures, Arbonne's NutriMinC RE9 RetaliatE Wrinkle Filler is an inexpensive and effective way to maintain the appearance of youthful skin or even protect your investment on fillers and botox.

This NEW go-anywhere, easy-to-use precise applicator pen delivers a dynamic formula infused with GABA (a natural muscle relaxer) and hyaluronic-silica spheres that visibly help to soften and diminish the appearance of wrinkles, crows feet, and deep lines, ensuring that you can look your best ... wherever you are!

Available online www.ukonline.myarbonne.com

In the cosmetic industry since 1980 and boasting sales growth over 80% in 2006, Arbonne International develops pure, safe and beneficial health products for all ages. The product portfolio includes skin care for men, women and babies, body care, makeup and more. Available in US, Canada and Australia. With a recent launch in the UK since November 2007, it's an exciting time to become part of Arbonne.

Oo!chi, an independent distributor of the Arbonne range, specialises in the aesthetic and beauty industry and has created protocols for a number of treatments with the Arbonne products. oo!chi has also developed a unique programme specifically for educational establishments. Oo!chi is available for product training sessions and opportunity discussions.
