**Hungarian version of Multilizer 2007 released**

*Multilizer now provides service and support to our Hungarian customers in their native language. To meet the requirements of its customers, four versions are offered: Enterprise, Pro for Documents, Pro for Developers, and Pro for Translators.*

/24-7PressRelease/ - HELSINKI, FINLAND, May 16, 2008 -- In order to serve Hungarian customers better, Multilizer now offers the localized Hungarian version of Multilizer 2007. Furthermore, in close cooperation with Hunnect Ltd, Multilizer now provides service and support to Hungarian customers in their native language.

The two companies Multilizer and Hunnect Ltd. earlier agreed on close cooperation with the aim of developing specific solutions for the translation and localization industry, specifically for the Eastern European markets. Hunnect has acted as a value added reseller for Multilizer's products since March, and as fruit of the cooperation the Hungarian version of Multilizer 2007 is now released.

To meet the requirements of the various localization tasks, five Hungarian editions of Multilizer 2007 are offered: Enterprise, Pro for Documents, Pro for Developers, Pro for Translators, and the free Translator Lite for outsourced translators. The products run under Windows Vista, XP and 2000. For availability and pricing of the Hungarian version, contact [sales@multilizer.hu](mailto:sales@multilizer.hu) or visit [www.multilizer.hu](http://www.multilizer.hu).

**About Multilizer**

Multilizer is leader in globalization software technologies. Over 4500 companies in 60 countries and numerous Fortune 1000 companies, such as Intel Corp., Compaq, Nokia, Siemens, Xerox use Multilizer's technologies to localize their software for the global market. Over the years, Multilizer has introduced many pioneering innovations, such as Translation Memory, database localization and pseudo translation to all character sets. The company is headquartered in ESPOO, Finland and has resellers worldwide. More information about Multilizer solutions can be found at [www.multilizer.com](http://www.multilizer.com).

**About Hunnect Limited (Hungary)**
