**FAST & EASY: YourEdgeOnline.com MAKES HAVING A WEB PRESENCE SIMPLE
Technology Upgrades Make World Class Web Hosting Service Even Better**

YourEdgeOnline.com is offering the new Windows Server 2008 with Internet Information Services 7.0 (IIS7) software as the backbone of its Windows Web hosting product line.

/24-7PressRelease/ - MENTOR, OH, May 16, 2008 - YourEdgeOnline.com is offering the new Windows Server 2008 with Internet Information Services 7.0 (IIS7) software as the backbone of its Windows Web hosting product line.

The technology, which Microsoft officially launched at its "Heroes Happen Here" event in February, improves Web site performance by making more efficient use of server resources. It also provides customers with new tools to help build their Web sites, and boasts enhanced security features that augment YourEdgeOnline's multi-faceted approach to protecting customers data.

"We are excited at the opportunity to leverage the newest Microsoft technology to meet the needs of our clients, states Jason Murphy, Founder of YourEdgeOnline.com."

YourEdgeOnline.com has already seen a substantial increase in server performance in its initial testing of the new technology, and is excited to see it in production for its customers.

The addition of the new technology means there is no better time to develop an online presence. YourEdgeOnline.com also makes it fast and easy with Web hosting services that are ideal for both individuals and small businesses.

Shared hosting packages feature unparalleled 24x7 Customer Support, world-class data centers and a 99.9 percent uptime guarantee.

For more information about YourEdgeOnline.com hosting plans, visit www.YourEdgeOnline.com.
