**Structured Green announces the addition of Pure by Ami McKay, furniture that's a fusion of high design and environmental sustainability.**

*PURE was founded in an effort to balance the desire for beautiful furniture and homes, with the need to make better choices for our health and to protect our environment.*

/24-7PressRelease/ - SAVANNAH, GA, May 16, 2008 - PURE was founded in an effort to balance our desire for beautiful furniture and homes, with the need to make better choices for our health and to protect our environment. Ami McKay has been creating healthy homes for over 8 years and found a lack of stylish design that filled the need of her clients. From this problem a solution was found: PURE. PURE produces high quality contemporary furniture pieces that will not off-gas or leach chemicals into the air.

PURE eco-furniture is a fusion of high design and environmental sustainability. The clean and graceful lines of their furniture lend themselves to the most beautiful environments, yet every aspect of their construction and materials is chosen with a social, health and environment consciousness. Each heirloom quality piece is handcrafted by skilled Canadian artisans, built to last a lifetime. PURE has four distinct collections to reach every design aesthetic: Earth, Air, Fire, and Water. PURE and STRUCTURED GREEN shares the core belief you do not have to compromise style for healthy and sustainable furniture. To reduce your carbon footprint and improve indoor air quality PURE uses sustainable materials:

- Biodegradable, natural latex rubber
- FSC Certified hardwood frames
- Organic cotton batting
- Renewable jute and latex webbing
- Non-toxic adhesives
- OEKO-tex certified wool fabrics
- Non-toxic lacquer and stains

Structured Green is pleased to add PURE to its eco-gallery of healthy, sustainable furniture. Look for the full line of PURE at [www.structuredgreen.com](http://www.structuredgreen.com) or call us for custom orders and additional questions.

Structured Green is a retail company that promotes eco-friendly furniture and accessories. Please contact us toll free at 866-593-8064 for [www.structuredgreen.com](http://www.structuredgreen.com) for additional information.
