Leading Dallas Based Real Estate Investing Company Teams With United First Financial To Help Homeowners Eliminate 1/2 to 2/3 Of Their Remaining Mortgage Payments

The WinGroup Real Estate Network has teamed with Utah based United First Financial to help homeowners ELIMINATE 1/2 to 2/3 of their remaining mortgage payments.

/24-7PressRelease/ - RICHARDSON, TX, May 16, 2008 -- The WinGroup Real Estate Network; a Dallas based company; has teamed with Utah based United First Financial. This partnership now allows the Dallas based company to help homeowners ELIMINATE 1/2 to 2/3 of their remaining mortgage payments;

WITHOUT refinancing their current mortgage
WITHOUT increasing their monthly payments OR changing their current lender
WITH little to no alteration in their household budget & there is no cost to the consumer.

The interest reduction solution puts the deed of your home in your hands in a fraction of the regular time by utilizing banking strategies which have been around for decades.

"This partnership puts our company in a position to help families survive in a down economy. The largest debt a family will have is their home mortgage. If families could eliminate that large liability, more of their hard earned money would go into their pockets instead of the banks." says LaDale A. Buggs, founder & owner.

The WinGroup Real Estate Network is an innovative company that helps homeowners reach their financial goals. Since 2004, they have been helping families with their real estate needs no matter what situation the homeowner has been in.

"Don't work for the bank, turn the tables and make the bank work for you LITERALLY!" says Buggs

For more information on how to ELIMINATE 1/2 to 2/3 of your remaining mortgage payments, please visit;
