Canadian Supplier Of Electronic Components Promoted On The World Trade Forum

The World Trade Forum, an international trade portal for industrial buyers and suppliers worldwide, will feature a Richmond Hill, Ontario-based supplier of electronic components on its Web site.

/24-7PressRelease/ - RICHMOND HILL, ON, CANADA, May 17, 2008 - The global industrial trade site for the manufacturing community, World Trade Forum, a division of US-based Industrial Leaders Group, will feature a supplier of electronic equipment and systems from Richmond, Ontario, Canada at <http://www.ForeignTradeExchange.com/forum/>.

According to Joseph Conte, spokesman for the company, the site includes offerings for a broad variety of electronic components, tools and equipment such as SMD/SMT testing systems, handheld multimeters for printed circuit board (PCB) debugging, meters, semiconductors, obsolete electronic components, measuring devices, PCB testers, inspection equipment, wiring and associated products.

Conte said companies in Ontario and other markets throughout Canada and North America looking to buy or sell electronic components, including hard to electronic parts and devices, can post offerings to buy or sell on the company's Industrial Classifieds site at <http://www.IndustrialSAVER.com/classifieds/>.

The World Trade Forum recently included offerings from manufacturers of high precision RLC-meter and component identifiers integrated with a set of tweezers. The devices feature a broad range of measurement functions combined with the unique ergonomic design. Including various lightweight handheld devices suited for PCB debugging, component testing and SMD components sorting.

The World Trade Forum also includes an Electronic Components Directory providing access to on-line catalogs, sites and offers from manufacturers and distributors of all types of electronic components at: http://www.ForeignTradeExchange.com/suppliers/electronics_equipment.html

About World Trade Forum

The World Trade Forum analyzes and rates the Web's leading international trade portals at <http://www.ForeignTradeExchange.com/forum/>. The site is designed to connect industrial importers and exporters worldwide seeking to enter or expand into overseas markets.
