AQABA, A Global Web Strategies Company Launches new Multi Platform Application (MPA) called Handegolf
AQABA proudly announces the launch of the new Multi Platform Application (MPA) called Handegolf

/24-7PressRelease/ - STERLING HEIGHTS, MI, May 19, 2008 - Clarkston, Michigan based 1Stop4Golf, LLC An Interactive Golf Scoring Company, launched its new product with the help of Global Search Engine Marketing and Web Strategies firm AQABA. The new Multi Platform Application (MPA) called Handegolf. Handegolf is an automated, interactive scoring system for golf tournaments. This real-time wireless mobile scoring system is effective and efficient for any event. The software consists of two modules, which together create a complete solution that is exciting and easy to use. The first module runs on a PC and is used by tournament organizers to manage event pairings, handicaps, scoring, ranking, and statistics. The software automates many of the necessary tasks to keep a tournament running smoothly. The second module runs on any Palm OS compatible PDA and is carried by each group on the golf course. The golfers simply tap in their scores on the device screen and the PDA transmits the data back to the PC. Players can track their own scores, as well as the scores of their competitors, all in real time.

Handegolf provides for a most interactive and unique day on the course, placing all golf scoring in the Palm of your hand.
