Deacom Launches ERP Software Training Program

The producer of the DEACOM Integrated Accounting and Enterprise Resource Planning (ERP) Software System, Deacom, Inc. announces today the launch of Deacom University, an accredited program designed to train users of all levels in each area of the DEACOM System.

/24-7PressRelease/ - WAYNE, PA, May 29, 2008 - The producer of the DEACOM Integrated Accounting and Enterprise Resource Planning (ERP) Software System, Deacom, Inc. announces today the launch of Deacom University, an accredited program designed to train users of all levels in each area of the DEACOM System. Held monthly at Deacom headquarters in Wayne, PA, each Deacom University course offers continuing professional education (CPE) credits through the National Association of State Boards of Accountancy (NASBA).

Deacom University will provide students with conceptual and practical knowledge in specific DEACOM functionality over a two-day course period. During day one of each course, students will learn system concepts under the direction of a Deacom instructor. Day two will allow students to apply skills gained in day one to their actual company data through remote connectivity to their DEACOM database.

"We developed Deacom University to give users in-depth training in the software functions that are most important to them," says Deacom President Jay Deakins. "Through a combination of training in a classroom setting and working on their live systems, participants will get a full-scale learning experience that applies directly to their business environment."

The following courses of Deacom University are open for registration:

DEACOM Financial Statements, July 16-17 - Learn how to create and run user-definable financial statements, including actual balance statements, income statements, and cash flow statements for corporate and divisional reporting and integrated drilldown to source data.

DEACOM Material Requirements Planning (MRP), Aug. 20-21 - Run MRP, drilldown into source detail, generate purchase orders, set-up re-order points, and build sales forecasts for your business.

DEACOM Sales Order Pricing, Sept. 17-18 - Learn how to create pricing structures, including order pricing, price lists, cost-plus pricing, quote price management, single-order pricing, and cascading deal pricing, within the DEACOM System.

DEACOM Sales Order Documentation, Oct. 22-23 - Use the DEACOM System to create and modify sales order reports and user-definable sales order documents, such as invoices, bills of lading, packing lists, shipping labels, and picking lists.

Visit the "Client Support" section of www.deacom.net to view more information about Deacom University or to register for a course today.

To learn more about the DEACOM Integrated Accounting and ERP Software System or to schedule an online demonstration, call 610-971-2278 ext. 15 or visit www.deacom.net.

About Deacom, Inc.

Headquartered in Wayne, PA, Deacom, Inc. is the producer of DEACOM, a complete accounting and Enterprise Resource Planning (ERP) system for building component, process, and mixed-mode manufacturers with difficult-to-handle requirements. The DEACOM System seamlessly links all departments within a manufacturing company, providing a comprehensive view of the entire operation. By making complex issues simple, Deacom helps streamline manufacturing business processes to maximize productivity and profitability.

Deacom is registered with NASBA, as a sponsor of continuing professional education on the National Registry of CPE Sponsors. State boards of accountancy have final authority on the acceptance of individual courses for CPE credit. Complaints regarding registered sponsors may be addressed to the National Registry of CPE Sponsors, 150 Fourth Avenue

North, Suite 700, Nashville, TN, 37219-2417. For more information, visit www.nasba.org.
