Legacy Spine & Rehabilitation Centre Plano Chiropractor and Acupuncture

Our Plano clinic incorporates chiropractic, acupuncture and physical medicine to provide you with the highest quality of holistic care.

/24-7PressRelease/ - PLANO, TX, June 09, 2008 - "We offer to our patients the most comprehensive care, combining the most current rehabilitative techniques. Our multidisciplinary office provides our patients with a variety of services including, pain management, chiropractic care, physiotherapy, acupuncture, and nutrition. Our Plano office is equipped with the most modern physio/ physical therapy equipment and technology, including spinal decompression, electric muscle stimulation, ultrasound, and much more. Using the philosophy of holistic and alternative medicine, we have found that treating a patient as a whole person, and treating the cause of disease instead of their symptoms, helps to not only decrease pain, but improve the patients overall health. For many years chiropractors and acupuncturists have used this philosophy as a way of maintaining health and preventing disease. The trend for complimentary and alternative medicine has helped us combine both traditional and modern chiropractic techniques with physical medicine, physical therapy and acupuncture to provide the most effective treatment for many different conditions. With years of combined medical, chiropractic, and acupuncture training and education, we have treated many conditions ranging from whiplash to scoliosis to herniated discs, to infertility. We have had stunning success with these conditions as well as many others. Patients seeking treatment at our Plano location are assured of receiving the finest quality of care, because of our genuine concern for your well being. Call today to find out how our unique holistic approach to patient care can begin to help you to **START LIVING HAPPIER AND HEALTHIER TODAY!**
