/24-7PressRelease/ - RICHMOND, VA, June 09, 2008 - Sealpac USA, LLC announces newly remodeled web site at www.sealpacusa.com

The new US web site will support informational inquiries for Modified Atmosphere Packaging tray sealer machines for fresh foods.

Background

Sealpac machinery and equipment is a top-3 MAP systems provider in Europe. Equipment information can be viewed at <http://www.sealpacusa.com>

Sealpac USA customers are in primarily in the fresh food production, distribution, and manufacturing businesses in the United States and Canada.

Sealpac USA offices, operations, warehouse, and service departments are located at 5901 School Avenue, Richmond Virginia. This location is 1/8 mile north of US64 on Staples Mill Road, in Henrico County, Virginia.

Richmond Virginia was selected as U.S. headquarters for Sealpac USA, LLC. Mark Auernheimer, General Manager, President, and CEO details that Virginia was selected for Sealpac USA site location based on highway transportation infrastructure, positive business climate, proximity to ports, University/education system quality, and generally well developed governance and legal framework.

Virginia was selected from locations in central Virginia, North Carolina, and the midwest/central US.

Mark Auernheimer, General Manager, has held Production, Engineering, Sales, and Management roles with several companies in Food and Packaging including Rocco, Cargill, Tyson, and CPOR Solutions(a Bizerba Company). Mr. Auernheimer holds a degree in Engineering from University of Arkansas (Fayetteville AR), and an MBA from Averett University (Danville VA).
