Bath And Beauty Products For The Discerning Minds!

/24-7PressRelease/ - PITTSBURGH, PA, June 12, 2008 - Are you looking for bath and beauty products that are truly different...both in the way they look and the way that they feel? Would you like to support a small beauty company that believes in "yummy smells and yummy feeling products" and that "if we can't pronounce the ingredient, then it shouldn't be on your body"? If you answered "YES" to any of these questions then disquieting designs, certified Cruelty-Free by PETA, is the company for you!

Every bath and body product from disquieting designs is handmade and tested on the beloved guinea pigs known as family and friends so that when the customer gets the end product, it is exactly what they are looking for in a beauty creation. Each item is expertly created and uses only quality ingredients.

About disquieting designs

disquieting designs started in early 2005 originally under the name trash couture. It began as a small jewelry operation and as a reason to avoid studying Probability and Statistics, catering to the up-and-coming generation (and to college roommates...). Seeing that the jewelry industry had enough going on as it is, trash couture revamped into disquieting designs and high tailed it into the bath and beauty industry. Now disquieting focuses on yummy smells and yummy feelings...we believe that if we can't pronounce the ingredient, then it shouldn't be on your body.
