New Consulting Edition of Leading Integrated Business Solution Deltek Vision

New edition of Deltek Vision delivers enhanced features specifically designed for the unique needs of today's consulting firms

/24-7PressRelease/ - CAMBRIDGE, UK, June 13, 2008 - kpi-insight consulting, a leading UK reseller of the integrated business solution Deltek Vision, is pleased to provide Deltek's latest release; Deltek Vision Consulting Edition.

This edition contains new features and capabilities designed specifically for today's consulting firms, to enable greater visibility and control over internal operations. The New Consulting Edition has been developed upon Deltek's 25 years of experience with project-focused businesses.

New functionalities added include the areas of Human Capital Management (HCM), client satisfaction analysis and workforce optimisation. The Consulting Edition optimises a company's greatest commodity; their staff (talent pool, talent resource, people, talent inventory). In an increasingly competitive marketplace, it's the talent that provide the most inherent value to a company's reputation and growth.

"We are looking forward to providing consulting firms with enhanced features designed specifically for their needs," said Yuwan Effendi, CEO of kpi-insight consulting. "The Consulting Edition highlights Deltek's understanding and commitment to the consulting market. Together with kpi-insight consulting's extensive experience within the UK market, the Deltek Vision Consulting Edition is a great software solution to meet UK consulting firms' needs."

About kpi-insight consulting

kpi-insight consulting is a leading UK Deltek Partner. More than 12,000 customers worldwide rely on Deltek to measure business results, optimize performance, streamline operations and win new business.

kpi-insight consulting offers a comprehensive portfolio of professional services to ensure clients get the support and results they need, with a focus on organisational profitable growth and long-term business success.
