Digital Storm Launches High Performance Gaming Computer Parts

The Best Gets Better -Boutique Gaming Computer Manufacturer Expands its Product Line with the Latest in Gaming Components

/24-7PressRelease/ - Fremont, CA, June 14, 2008 - Digital Storm, the premier builder of high performance custom gaming PC's, is proud to announce the launch of an expanded product division, offering gaming enthusiasts the latest in gaming computer parts and components.

Digital Storm's award-winning Twister gaming computers have taken the computer gaming market by storm for years, offering unparalleled performance at an affordable price. With acute attention to customer service, Digital Storm is expanding its product line so that every user can optimize their investment in the ultimate gaming computers with the latest in high quality components.

"As our customer base and our company expands, we want to make sure that our loyal customers continue to have a satisfying gaming experience with the latest gear and the highest quality computer gaming components. Our customers represent the best gamers in the industry and they deserve the latest and greatest parts we can offer," says Mr. Chana, Digital Storm Founder and CEO.

Digital Storm systems are built for power, speed and rock solid stability. This launch will offer its customers graphics on steroids with the new Nvidia GeForce GTX 280; lightning fast processor speed with the new Intel Core2 Quad Processor Q9450 and the AMD Phenom X4 9850; and overclocking reliability with its patented FrostBite liquid cooling system. Digital Storm offers these and many other custom components to help professional gamers protect their investment in the highest quality custom gaming PC.

Easy customization of the hardware enables Digital Storm to easily satisfy each customer's specific needs. Intensive testing, overclocking of all system components and U.S. based Toll free technical support ensure all Digital Storm customers that they have not just purchased a high quality gaming computer, but they have also gained a trusted partner in the process. "Everyone else is just a Storm Chaser."

Digital Storm is a premier manufacturer of high performance custom gaming computers. For further information and to custom build your own dream gaming PC, please contact us at 866-817-8696.
