**/24-7PressRelease/** - NORTH VANCOUVER, BC, CANADA, June 15, 2008 - Sentias Software Corp. has empowered Sweet Dream Tees Inc. to share their creative vision with the world through a full website design as well as an online commerce solution, the Commerce Server. The new website has captured the essence of Sweet Dreams Tees, and has transformed browsers into buyers.

"It's tough to find a talented web designer who understands your requirements since the tech business and the fashion industry are so very different." Said Deborah Wardell, owner of Sweet Dream Tees Inc. "I needed someone who could pull the vision out of my head and onto the screen in the form of a web site. Sentias has made my site speak for me globally. It is a great tool for flaunting our creations and for introducing them [site guests] to Sweet Dream Tees Inc. virgins and the brand will continue to expand, with Sentias as a great partner."

The Commerce Server is a powerful, e-commerce application that online retailers use to merchandise and sell through the Internet. The Commerce Server can be used for larger companies such as Kitson LA, as well as scaled down for smaller applications such as Sweet Dream Tees Inc. The Commerce Server has been embraced by online boutiques across Canada and the U.S. for its ability to bring their creative vision to life and also drive sales.

**About Sweet Dream Tees, Inc.**

Sweet Dream Tees satisfies a void in the marketplace for fashion comprised of luxurious quality, a little bit of frivolity and lots of twinkle. Sweet Dream Tees, Inc. fashions are emblazoned with original artwork, tongue-in-cheek slogans and Swarovski Crystal princess, emerald, marquis, teardrop and baguette cuts. The brand, founded by Deborah Wardell, captures excessive style with a regal-meets-rock 'n' roll appeal for babies, kids, tweens and teens, women and men, and the home. We want you to sparkle every day. For more information, go to <http://www.sweetdreamtees.com>
