Rick E. Day Partners Up With CarbonCopyPRO!

The southwest region of the United States was buzzing today when news leaked out that Rick Day had become one of the newest marketers at CarbonCopyPRO. Rick, an expert internet marketer, joins an already power-packed lineup of entrepreneurs in the CarbonCopyPRO stable.

/24-7PressRelease/ - ALBUQUERQUE, NM, June 19, 2008 - When Co-Founders Jay Kubassek and Aaron Parkinson were asked for their opinion on Mr. Day they answered:

"We could not be more thrilled about Rick's decision to join us. Rick brings a unique, high energy approach to our community. Rick will be an asset to every other member from the first day he arrives."

CarbonCopyPro has been on a tear lately. Their turn key "business in a box" has been the talk of the online world this year. The members of CarbonCopyPRO have set a challenging goal of creating 100 millionaires by 2012. Their unique approach of providing their members with pre-designed websites, auto responders, qualifying filters, and a high quality call center has dramatically increased the general success rate. People with little or no marketing experience are getting results they never thought possible.

Rick was quoted as saying "CarbonCopyPRO is hands down the simplest way to make money online. These guys are constantly improving their marketing system to stay ahead of the competition. I could not be happier about starting this new business."

CarbonCopyPRO is based in New York and their information website is <http://excitingonlinebiz.com>
