**Anti-aging Facial Technology Announced by Sunrise Holistic Health Care Practice**

*Who wants to look and feel younger? Kimberly Marin, AP, RD, is the only health care practice in Florida certified in the use of Acugems Facial Rejuve.(tm). She is offering free treatments to members of the press.*

**/24-7PressRelease/** - SUNRISE, FL, June 20, 2008 - Anti-aging and rejuvenation are being sought by older Americans, and looking younger is what acupuncture physician and registered dietitian Kimberly Marin, AP, RD offers through the latest technology.

Marin is the only health care practitioner in Florida certified in the use of Acugems Facial Rejuve.(tm), a unique anti-aging treatment that works with traditional Chinese medicine, microcurrent, light, color, gemstones, and the body's natural ability to heal and rejuvenate itself. She is offering free treatments to members of the press to demonstrate this latest technology.

"The entire treatment lasts an hour and is a truly exquisite experience with products that are so natural that you can smell the real herbs. The allure of fresh scents is inviting, but wait until you feel the difference that infused gems like tourmaline, diamonds, and amethyst make. They not only make your skin glow, but the gemstones' natural energy also enhances your skin inside and out," explained Marin.

Marin's clinic is located at 12651 West Sunrise Boulevard, #202, in Sunrise. Marin provides acupuncture, medical nutrition therapy and many other holistic health care services.

Marin has a bachelor of science degree in nutrition and dietetics from Florida International University, and received a master of science degree in oriental medicine from the Atlantic Institute of Oriental Medicine. She performed her clinical internships at the Cleveland Clinic and Holy Cross Hospital. She operates a family practice, with a major focus on acupuncture and holistic therapies such as NAET, BodyTalk, homeopathy, facial rejuvenation, and laser therapy.

Marin offers information at <http://www.KimberlyMarin.com>
