Global MainFrame appoints Peter Wallis to Advisory Board

Calgary-based Global MainFrame has added another powerful expert to its distinguished Advisory Board by announcing that logistics guru Peter Wallis has accepted his appointment today.

/24-7PressRelease/ - Calgary, Alberta, July 12, 2008 - Steve Turcotte, CEO of leading SaaS solutions provider Global MainFrame, announced today the company has appointed Peter Wallis to their Advisory Board, effective immediately. The Advisory Board is a panel of distinguished experts drawn from Global MainFrame's external stakeholder communities and plays a key role in advising its Directors on emerging trends, strategic planning and platform development. "Peter is a leader and a bona fide transportation expert," enthuses Turcotte. "We're all incredibly excited about this announcement."

Currently, Wallis is president and CEO of the Van Horne Transportation Institute, an internationally recognized think-tank affiliated with the University of Calgary, whose researchers address critical transportation problems, including those of a regulatory nature. He is a lawyer, a member of the Law Society of Upper Canada, and also serves as Chairman of the Board of Directors of the Calgary Airport Authority, having spent over 14 years as a senior airline executive with Pacific Western and Canadian Airlines.

"His credentials are impeccable," Turcotte states. "He brings extremely valuable knowledge and insight to the table, not only with respect to the transportation industry but also across the entire spectrum of logistics. His vision augments our own and will assuredly keep us focused on achieving our mission. He'll definitely keep us on the forefront as we become known as a leader in delivering SaaS solutions."

Originally from Toronto, and now residing in Calgary, Wallis has previously served as a member of the Board of Directors of a publicly traded company. He is Past President of the Calgary Chamber of Commerce and past vice-Chair of the Calgary Homeless Foundation. He currently serves on the Boards of Calgary International Film Festival. He joins an elite team of professional executives, which unveiled its Energy Resource Manager platform at the Global Petroleum Show.

"Steve has a ground-breaking view of what an innovative company like Global MainFrame could bring to the future of the Oil and Gas sector," Wallis adds. "I am extremely pleased to be entrusted with these responsibilities by the board who recognize a tremendous opportunity to develop this market and many other sectors, as do I."

About Global Mainframe

Global Mainframe, trading on the NASDAQ Bulletin Board, symbol: GMFCF, delivers asset management SaaS modules online. Now a Certified Microsoft Partner, Global MainFrame has been selected one of Microsoft's 14 exclusive field-managed partners out of 3,000 in Western Canada. Additional modules will cover operational areas such as dispatching, field ticketing, inventory controls, and employee training. Global Mainframe also offers an extensive mapping engine integrated into its base platform to help clients' visualize and operate their businesses efficiently and effectively.
