Unique 3D Online Casino Launches Real-Money Games -- New Lucky-Go-Round Slot Machine Added to Three Dimensional Games Hall

WinADay.com, the 3D online casino from Slotland.com, has launched real-money slot machines to add to the free games launched by the unique three dimensional online casino several months ago. A brand new slot machine - the Lucky-Go-Round - is new in both free and real-money Games Halls.

/24-7PressRelease/ - LONDON, UK, July 16, 2008 - WinADay.com, the all-new 3D online casino from Slotland.com, has just launched a suite of real-money slot machines to add to the free games launched by the unique three dimensional online casino several months ago. A brand new slot machine - the Lucky-Go-Round - is new in both free and real-money Games Halls.

Animated customer service attendants will be on hand as usual to help players get to the new games from the 3D Games Hall. New players will be welcomed with a 100% deposit bonus up to \$250.

"Our 3D casino environment, our animated customer service attendants, new games - these are all big steps for us!" said Martin Smith, the Pit Boss at WinADay.com. "We've been testing with our free games for several months now, preparing for the launch of our real-money slot machines and now we're ready to celebrate!"

Many fruity players are loyal to their favourite machines but most like to try something new once in a while too.

"It's different, that's for sure!" said one regular Slotland.com player trying WinADay's new Lucky-Go-Round slot machine. "When you enter that casino lobby, and the attendant greets you by name, that's more like walking in to a real casino than just logging on to a website!"

WinADay.com games are based on the latest instant-play, no-download Flash technology that allows designers to incorporate the rich media content that today's online game players expect. WinADay.com casino is alive with crisp graphics, fancy animations, cool sounds effects and background music.

All games are original, built using proprietary software, and only available at WinADay.com. "Wheeler Dealer" is a 3 reel, 8 payline slot machine and "Jack's Show" is a video poker game based on the popular Jacks or Better video poker game. The latest game, introduced just in time for the launch of the real-money Games Hall, is "Lucky-Go-Round", a whimsical carnival-style slot machine.

All three games are tied to the WinADay.com progressive jackpot. The new casino has just launched so the jackpot isn't large yet. However, if it's anything like the Slotland.com jackpot, it will be hit frequently for six figures!
