Lip Enhancements

Is there a procedure that can make your lips "pouty" like Angelina Jolie's? Yes, and it is called lip enhancement.

/24-7PressRelease/ - LAKELAND, FL, July 17, 2008 - Is there a procedure that can make your lips "pouty" like Angelina Jolie's? Yes, and it is called lip enhancement.

Usually referred to as lip augmentation, lip enhancement makes your lips fuller and larger just a breast augmentation makes your breasts fuller and larger. It also eliminates wrinkles or fine lines in the lips.

Lip Enhancement Procedure

Whether you enhance the upper lip, the lower lip, or both, the technique used is the same. The basic procedure involves either injecting filler or your own fat into the lips, or using surgical implants.

Lip enhancements are relatively simple procedures that take only 30 minutes to an hour and a half to complete. They are usually done with either general or local anesthetic and performed on an outpatient basis. Immediately after the procedure, you may notice swelling and tenderness. This will subside after a little while.

Dr. Jasin of the Jasin Facial Rejuvenation Institute serving the Lakeland, St. Petersburg, Sarasota, and Tampa area of Florida is expert at using either [injectable fillers](#) or a fat transfer to complete a beautiful lip enhancement.

Lip augmentations are frequently completed in combination with other cosmetic surgery procedures such as:

- Brow lifts
- Chin and cheek implants
- Eyelid lift (blepharoplasty)
- Facelifts
- Forehead lifts
- Neck lifts
- Nose job (rhinoplasty)

Benefits of Lip Enhancements

There are several benefits of lip augmentation procedure including:

- Natural-feeling results
- One-day turnaround with nonsurgical lip enhancements (injections)
- One-week turnaround with surgical lip enhancements (implants)
- Supple results
- Also, temporary enhancements from collagen or fat can let you see the results without fully committing to them beforehand.

Candidates for Lip Enhancements

Certain people are natural candidates for lip augmentation procedures. This includes those adults who have:

- Good health
- Lip wrinkles
- Thinning lips due to age
- Reasonable expectations about the outcome of the treatment

Since most healthy adults fall into these categories, most are qualified candidates for the simple augmentation procedure.

Risks of Lip Enhancements

The great news is that problems with lip augmentations procedures are very uncommon. Known risks include:

- Fluid discharge
- Implant misalignment (easily corrected)
- Implant rejection
- Infections
- Irritation or swelling at the injection or implantation site

The rarity of these complications means that most people who have lip enhancements enjoy their new plump, well-rounded lips for a long time to come!

If you want to have full, supple, plump, pouty lips like Angelina Jolie, you should look into have a simple and virtually risk-free lip enhancement procedure done to give you that youthful, sexy look you have always wanted in your lips.
