**Homebye - The new way to sell your home, launches**

*<http://www.Homebye.co.uk> the new way to sell property in Grimsby and Cleethorpes launches. Homebye intend to make moving more affordable in the local area, working on a fixed fee non commission basis regardless of the price of the property.*

**/24-7PressRelease/** - NORTH EAST LINCOLNSHIRE, UK, July 18, 2008 - Scott Riches Managing Director of Homebye stated " Homebye is an alternative to the traditional high street estate agent and the online private sale sites which operate nationally, we are aiming initially at the private seller to list on Homebye, we can give their property exposure through the homebye website plus national sites such as Fish4homes, Nestoria, Channel4homes and ononemap. Our aim is to get the Homebye name into the public domain as an alternative solution to selling property with a traditional agent. The hard work is getting the people of North east Lincolnshire to look at properties on the homebye site and not rely solely on national sites such as righmove, once people recognise there is an alternative and use the homebye site to search for property, then selling your property in the area becomes a lot more affordable".

To list on Homebye the seller requires an internet connection and must be prepared to do write their own description and take photos of the property, a representative from homebye will then visit the property to take measurements and ensure the description and photos do not infringe the Property misdescription act, the seller signs off to the property descriptions, the board is erected and the listing is made live on the site.

The potential buyer can communicate directly with the seller through email on the site, or the sellers Tel No which is displayed on the Homebye For sale board.
