**/24-7PressRelease/** - CAIRNS CITY, AUSTRALIA, July 19, 2008 - Clarendon on Spence Apartments can now deliver instantly confirmed bookings with the recent launch of its online reservation system, which can be accessed from the official website, [www.clarendononspence.com.au](http://www.clarendononspence.com.au). This new system uses state-of-the-art technology, enabling it to verify reservations immediately after all transactions via an automated e-mail.

Cutting confirmation time in half, however, is not the only benefit potential guests will get using the system. They will also get to view a 14-day calendar that displays real-time availability of these prime Cairns apartments and their corresponding rates. A 10% deposit, meanwhile, secures guests a reservation guarantee, ensuring the availability of their selected room or apartment type upon their arrival to the property.

Security is also a top priority. Clarendon on Spence's new system is backed by the 128-bit encryption technology of WorldPay, a Royal Bank of Scotland company, ensuring the protection of deposit payments and personal information.

Convenience in reserving direct and online is just the beginning of the Clarendon on Spence experience. This apartment complex offers the best Queensland accommodation for honeymooning couples, vacationing families, and even travelling business executives. Within the property's gated complex are 2- and 3-bedroom apartments fitted with large balconies, air-conditioning, fully-equipped kitchens, and walk-in robes. Facilities available to all guests include a spa and outdoor pool.
