Van Dyke Laser & Skin 1st in Arizona to Offer CLINIQUE MEDICAL Skin Care Line

Clinique and Allergan's new medical-grade products now available through cosmetic dermatologist, Susan Van Dyke, M.D.

SCOTTSDALE, AZ, October 03, 2008 **/24-7PressRelease/** -- Van Dyke Laser & Skin, a local cosmetic dermatology practice known nationwide for presenting the latest skin care innovations, announced today the exclusive availability of CLINIQUE MEDICAL skin care line. CLINIQUE MEDICAL, designed to optimize the outcome of non-surgical cosmetic procedures, is the product of an alliance between Clinique, a leader in cosmetic skin care, and Allergan, a leader in medical aesthetics, to advance the science of skin care with clinically proven products. The new line, which was specifically designed for patients under a physician's care, will be generally available through physician offices beginning mid to late October.

The products in the CLINIQUE MEDICAL skin care line work together to help improve the skin's receptivity to select cosmetic procedures—chemical peels, microdermabrasions and skin resurfacing treatments such as Intense Pulsed Light (IPL). The products aid in the recovery process by encouraging even skin tone, helping to manage post-procedure redness and reducing inflammation. All products in the CLINIQUE MEDICAL regime are allergy tested, 100 percent fragrance free, contain no preservatives and are formulated with pharmaceutical-grade ingredients.

"CLINIQUE MEDICAL's system is a giant leap in at-home, pre/post procedure skin care. The products work together brilliantly to help speed the skin's recovery process after select treatments and minimize the skin's sensitivities traditionally experienced from cosmetic procedures," said Susan Van Dyke, M.D., board certified dermatologist and founding physician of Van Dyke Laser & Skin. "I am always looking for ways to enhance my patients' treatments and outcomes, and I think this new regime will help them achieve quicker results with milder recovery effects."

To kick off the product launch, during the month of October, Van Dyke Laser & Skin will offer CLINIQUE MEDICAL's Optimizing Regimen kit complimentary with the purchase of a skin resurfacing series and at half off with the purchase of a chemical peel or microdermabrasion series. The five-product kit consists of the following: Probiotic Cleanser, Skin Conditioning Treatment, Recovery Week Complex, Optimizing Treatment Cream and Daily SPF 38. For more details on the promotion or products, call 480.948.5045.

ABOUT VAN DYKE LASER & SKIN

Named the "Top Medspa" by Arizona Woman magazine in 2007 and 2008, the Scottsdale, Ariz.-based Van Dyke Laser & Skin was one of the first dermatology practices in the world to focus exclusively on cosmetic treatments. Founder, Susan Van Dyke, M.D., has performed more than 10,000 non-invasive cosmetic procedures and has received the "Physician's Recognition Award" from the American Medical Association each practicing year. She is a top consultant and national physician trainer for Medicis, Allergan and Lumenis; a "Platinum Plus" BOTOX Cosmetic and Juv derm Provider; and her practice is designated as a BOTOX Cosmetic National Training Center. Dr. Van Dyke has also lectured internationally for Thermage and is on the advisory board for Valeant Pharmaceuticals. For more information on Dr. Van Dyke and her practice, visit www.VanDykeLaser.com.

Hours of operation for Van Dyke Laser & Skin are Tues.-Fri. from 8:00 am to 5:00 pm and Sat. from 8:00 am to 12:00 pm. Consultations and appointments can be booked through 480.948.5045.
