U.S. Military Bases Have Discovered Instant Messaging Devices With Quick Impact!

Terrorists alerts, DHS's National Threat Advisory levels, time sensitive instructions and messages to Base personnel and the public are displayed in a timely manner with eye catching impact.

GRAND PRAIRIE, TX, October 06, 2008 **/24-7PressRelease/** -- The Air Force, Army, Navy, Marines and Coast Guard are now employing EMC's (Electronic Messaging Centers) to communicate with Base personnel and Base visitors. Messages consist of security alerts, alarms, instructions to visitors, safety reminders, messages of the day, VIP welcoming, congratulations for jobs well done, and anniversary and retirement announcements.

Any time sensitive information can be quickly and efficiently displayed in a manner of seconds. Displays consist of LED signs and LCD signs. Multiple LED and LCD signs can be networked in groups or as single stand alone signs.

ENTECH's Government Sales Manager, Steve Teas has heard many customers say "Nothing attracts attention like a moving message sign!"

ENTECH Signs - ALPHA LED, LLC is a Service Disabled Veteran Owned Business (SDVOB) and is on GSA Schedule. ENTECH supplies LED and LCD signs and has completed 100's of "turn-key" projects for the Military and Government.

Some recent installations include: <http://www.ledticker.com/gsa.html>
