RHUB WEB CONFERENCING APPLIANCE WINS NETWORK PRODUCTS GUIDE READER TRUST AWARD FOR BEST IN COMMUNICATIONS AND COLLABORATION

TurboMeeting Selected as the 2008 Best Products and Services Winner for Web Conferencing Hardware and Software

SANTA CLARA, CA, October 08, 2008 **/24-7PressRelease/** -- RHUB Communications, Inc. (RHUB), a provider of on-premise Web conferencing appliances, announced that Network Products Guide, a leading Silicon Valley Communications publication on technologies and solutions, has named the Company's TurboMeeting 500 a winner of the 2008 Best Products and Services Award. This respected annual award honors products and services that represent the rapidly changing needs and interests of the end-users of technology worldwide. As part of the tech-industry's leading global awards program, this year's Best Products and Services were nominated from all over the world.

"Increased end-user awareness and ongoing advances in technology are helping shape better products and services," said Rake Narang, Editor-in-Chief, Network Products Guide. "TurboMeeting is setting a new standard for low cost, ease of use, and providing practical, functional features for Web conferencing."

"We are honored that TurboMeeting has gained the Network Products Guide Reader Trust," said Larry Dorie, CEO of RHUB Communications. "We are committed to providing the best products and services, and meeting the real-world needs of our customers."

RHUB specializes in on-premise Web conferencing appliances, in which the user owns and controls the complete Web conferencing hardware and software. TurboMeeting provides state-of-the-art conferencing with enhanced security and performance. TurboMeeting is ideal for sharing confidential and proprietary data, and provides a full suite of practical Web conferencing meeting types and features. TurboMeeting also offers full "Universal Attendance" capability, where any attendee with a browser can join a meeting with no download required. TurboMeeting expands and improves conventional Web conferencing by combining multiple applications, including:

- Web Conference - Web-based interactive meetings
- Remote Support - for PC and Mac users, with remote reboot capability
- Remote Access - access to computers at home or office from anywhere, anytime
- Web Seminar - no downloading facilitates a quick (in seconds), easy (URL only), reliable way for large groups of attendees to join meetings

RHUB's on-premise Web conferencing appliances give users complete ownership and control of the hardware and software. On-premise appliances offer significant advantages over hosted solutions, including:

- Lower Total Cost of Ownership
- Enhanced Access Security
- No IT support required
- Integration features to enhance usability within customer environments
- Customization opportunities

RHUB's on-premise Web conferencing appliances are available in capacities that serve SMBs to global enterprises, and come with a one-year warranty for hardware and software. For a full listing of TurboMeeting appliances and specifications, visit <http://www.rhubcom.com>
