Tonometer Diaton a Glaucoma Exam through the Lid is Presented at Vision Expo West, Las Vegas

Diaton tonometer a Glaucoma Exam through the Eyelid is presented at Vision Expo West, Las Vegas at Sands Expo and Convention Center. Diaton Tonometer will be showcased by an industry leader in pre-owned and new optical and ophthalmic equipment Vision Systems Inc (VSI).

LAS VEGAS, NV, October 08, 2008 **/24-7PressRelease/** -- Vision Systems Inc. (VSI) will be presenting Tonometer Diaton, Patternless Edger's, Traditional Lane and Pre-Test Equipment, HRT Retinal Tomographers and Fundus Cameras for optometrists, ophthalmologists, opticians, and ophthalmic professionals at all career levels.

Who Should Attend? Industry Professionals seeking cutting edge advancements in the following areas...

- Optometrists seeking diagnostic tools and treatment options
- Opticians interested in trends, lenses and lens technology
- Lab owner/manager or technician seeking technology and equipment
- Vision care store or chain owner/manager or purchasing personnel looking for fashion
- Vision therapists wanting to learn the latest therapeutic techniques

Any ophthalmic medical or eye care professional seeking new ideas and contacts, networking opportunities and continuing education options

BiCOM Inc, a Master distributor of tonometer Diaton is pleased to cooperate with VSI, an international leader in optical and ophthalmic equipment to introduce the unique Diaton trans-scleral and trans-palpebral tonometry in order to jointly challenge Glaucoma, a "silent thief of sight", that carries an ever increasing threat of causing blindness as the aging population is growing in US and abroad

Mr. Iospa has pointed out, "Now Diaton tonometer allows to do more through mass glaucoma screenings in adults and children without the use of anesthesia drops and, more importantly, with no contact with cornea, since Diaton tonometer measures intraocular pressure through the upper eyelid, which in its turn does not require correction for corneal thickness and dramatically decreases a possibility of infection. "

Vision Expo is a perfect opportunity to obtain free training and to learn of the clinically proven benefits of Daiton (trans-palpebral) tonometry.

"Diaton tonometry" is a unique approach to measuring intraocular pressure (IOP) through the Eyelid. Non-Contact (no contact with cornea), no anesthesia or sterilization required with this pen-like, hand-held, portable tonometer.

Tonometer Diaton FDA, CE Mark, Health Canada, Ministry of Health Mexico approved is currently available in over 30 countries.

More information on the device, including clinical trials data can be found at <http://www.TonometerDiaton.com> or by calling BiCOM Inc. at the toll free number 1-877-diatons (877.342.8667).
