The Miss Italy company leaves Grand Hotel Terme Astro

After the election of the 23-years-old Miriam Leone, the girls are ready to leave with a bag full of memories and a bit of wistfulness.

TABIANO, ITALY, October 09, 2008 **/24-7PressRelease/** -- The curtain drops on Miss Italy. Andy Garcia and Giancarlo Giannini have crowned Miriam Leone during the final broadcasted live on Italian Television Channel Raiuno. Excluded the first night and then retrieved to the competition, for the Radio Etna Express speaker, it will be a very special year, full of opportunities and chances that may change her life. Just a few days after the final of the beauty pageant and many TV shows and interviews with the most important magazines are on her way.

For the other finalists the dream is over. The lights are off inside the Palacotonella center and it is time to leave Tabiano and the Grand Hotel Terme Astro which gave them hospitality.

Many girls will come back to their studies or work. For the luckiest ones, the dream may begin, as for Valentina Mio, elected Miss Cinema, who will fly to the United States to attend a drama course at the "Lee Strasberg Theatre Institute".

They certainly follow different roads but each girl will cherish fond memories of the beautiful moments spent together at the hotel and wellness center, like the chats during the meals and before going to sleep and the strolls in the park.

Time to say goobye and the staff of the spa resort is ready for new tasks: meetings, team building, conferences, weddings and theatrical performances.

For further information about the thermal hotel and its prestigious spa please visit the website:
