Global Test Supply and XELTEK Signed Distributorship Agreement

Global Test Supply will be distributing Xeltek's SuperPro device programmers in North Carolina, USA.

SUNNYVALE, CA, October 09, 2008 **/24-7PressRelease/** -- Xeltek is happy to announce a distributorship agreement has been signed with Global Test Supply; and GTS will be selling SuperPro device programmers through their website.

Global Test Supply has served the semiconductor, process control and electronic industries under their product lines since 2004. GTS sells and gives services by providing new and refurbished products from many of the world's leading manufacturers. With the addition of the Xeltek SuperPro programmers, GTS strengthens its sales force to accommodate semiconductor customers. By offering SuperPro universal device programmers, Global Test Supply will be the only local authorized reseller of Xeltek in North Carolina.

Global Test Supply serves many different industries such as aerospace, telecommunication, government, plant/facilities and consumer electronics. Their portfolio of customers includes: Case New Holland, Department of Navy, NASA, Air Force, Airline Industry, Energy Spectrum and many state universities.

Global Test Supply develops its own proprietary web-based ordering system, customer management tools, web site, and other software/automation tools that keep the company lean and streamlined for online business. GTS accepts both online and offline orders by providing excellent customer support. GTS's online catalog drives over 80,000 visitors per month and boasts over 11,000 products across 180 manufacturers.

"Global Test Supply has experienced rapid growth in the past two years," states Robert Preville, President and CEO. "We consistently add new-to-the-market products such as Xeltek's SuperPro and best in class technology to our product repertoire."

There is no doubt that the Xeltek family will be stronger in serving its customers with the contribution of Global Test Supply.
