SureCom Solutions Offers Xblue Networks Limited Edition Pink Small Business Key Telephones Benefiting Susan G. Komen for the Cure

October Breast Cancer Awareness Month: Authorized Dealer SureCom Solutions Promotion to Deliver Donation of 20% of Wholesale Price Guaranteed Commitment of \$10,000 by Xblue Networks Through January 31, 2009

WALNUT CREEK, CA, October 09, 2008 **/24-7PressRelease/** -- Online eTailer SureCom Solutions announced today that available immediately to small businesses is the Xblue Networks limited edition pink digital key telephones designed to function with Xblue's X16 Small Office Digital VoIP Hybrid System and 45p Digital Communications Server. This is in support of the Susan G. Komen for the Cure partnership with Xblue Networks toward a cure for breast cancer.

The 'Symposium on Breast Cancer Global Awareness', held on October 7th in Washington D.C. predicts the disease is expected to kill 10 million people globally in 25 years without intervention. "I can't help but think that cancer in its many forms is running a muck world wide with no end in sight. Surely, there must be a cure on the horizon given our advances in modern science. My personal loss of both parents and a brother-in-law to cancer prompts me to do what I can to affect a cure. As a woman, the possibility of breast cancer is ever looming. This is a bold effort I hope will render a significant contribution", says Jan Olson, founder of SureCom Solutions.

Though October is the month for **National Breast Cancer Awareness**, the promotional agreement is extended through January 31, 2009. Any purchase of the X16 or 45p pink digital key telephones will deliver a 20% donation of the wholesale cost to the Susan G. Komen for the Cure foundation. Xblue Networks has committed to a guarantee of a minimum \$10,000 donation to the charity. The custom color pink telephones will be on display at headquarters in Dallas, Texas.

SureCom Solutions already offers the many other colors and system configurations produced by Xblue Networks including the standard charcoal and stylish designer series Titanium Metallic, Red Mahogany and Vivid Xblue. The smaller X16 Small Office Digital VoIP Hybrid System's maximum configuration is 6 Telephone Lines, 16 Digital Speakerphones and 2 VoIP Media Gateways while the larger 45p Digital Communications Server maximum configuration is 9 Telephone Lines, 24 Digital Speakerphones, 4 Analog ports and 8 Voicemail ports. Both systems are affordable, feature rich, easy to install, setup and use. There couldn't be a better time than now for small business to implement cost effective improvements to front-end image and more efficient communications with clients, customers and staff by applying Xblue solutions.

About Susan G. Komen Foundation:

Susan G. Komen for the Cure is the world's largest grassroots network of breast cancer survivors and activists fighting to save lives, empower people, ensure quality care for all and energize science to find the cures. Thanks to events like the Susan G. Komen Race for the Cure , Komen has invested \$1 billion to fulfill its promise, becoming the largest source of nonprofit funds dedicated to the fight against breast cancer in the world. To continue this progress, Komen for the Cure has pledged to invest another \$2 billion in the next ten years. <http://www.komen.org>
