Mobile Device Testers by Japan Radio Co. will be Supplied Through Test Equipment Connection based on New Sales Agreement

Test Equipment Connection Corporation today announced the company has been chosen to sell new Japan Radio Co. mobile phone test equipment. "Japan Radio Co. mobile phone testers are affordable test solutions for mobile phone manufacturing, service and repair applications"

LAKE MARY, FL, October 10, 2008 **/24-7PressRelease/** -- Test Equipment Connection Corporation today announced the company has been chosen to sell new Japan Radio Co. mobile phone test equipment. "Japan Radio Co. mobile phone testers are affordable test solutions for mobile phone manufacturing, service and repair applications," said Lexie Moss, Sales and Channels Manager for Test Equipment Connection Corporation. "The JRC NJZ4000 W-CDMA Application Tester is a best seller because it is much easier to use compared to other higher cost solutions available in the marketplace. The JRC NJZ2000 is a product that is applicable for carriers, repair centers, and manufacturers. JRC user friendly mobile phone testers perform a variety of service tasks, from go/no go, to module-level repair and after repair adjustments."
