**Lyons & Wolivar, Inc. (L&W Investigations) named exclusive vendor Turner Bros. of Oklahoma City, Oklahoma**

*L&W Investigations, the foremost private investigations firm specializing in insurance claims, recently started working with Turner Bros. LLC to be the Oklahoma City-based company's vendor for workers comp investigations across the United States.*

WESTBOROUGH, MA, October 10, 2008 **/24-7PressRelease/** -- Turner Bros. specializes in transportation and crane and rigging equipment. Serving 48 states, Turner Bros.' area of expertise is in running and servicing 50-650 ton cranes, with heights up to 430 feet.

In business for more than 60 years, Turner Bros. operates five truck terminals, each equipped with trucks and trailers with individual carrying capacities ranging to 225 tons. The fleet, consisting of both company-owned and lease equipment, is capable of transporting a wide range of cargoes, including equipment with special size or weight requirements.

"Turner Bros. is a very welcome addition to our roster of clients," said Neal Lyons, chairman and CEO of L&W Investigations. "With our network of investigations territories across the U.S. and Canada, as well as the Hawaiian Islands and Puerto Rico, we have the bandwidth to serve a national client the size of Turner Bros. while maintaining a very strong presence in each individual market. That's a combination very few investigations firms can offer."

L&W Investigations is not your typical private investigations firm because it works exclusively on workers compensation, disability, liability, auto and property claims for organizations ranging from insurance companies to third-party administrators, self-insured companies to law firms and municipalities.

L&W employs seasoned investigators who specialize in investigating insurance cases (or claims). All L&W investigators go through extensive training and have access to the most state-of-the-art surveillance equipment. L&W's service offerings include: surveillance; statements; activity/disability checks; asset/background investigations; and medical audits/clinic inspections.
