Taameer Jordan Holdings Launches Project Sales in the United Arab Emirates

Taameer Jordan Holdings (TJH), the largest real-estate development company in Jordan, announced that it is launching sales in the United Arab Emirates for the different housing units forming part of its Jordan based projects.

AMMAN, JORDAN, October 11, 2008 **/24-7PressRelease/** -- Taameer Jordan Holdings (TJH), the largest real-estate development company in Jordan, announced that it is launching sales in the United Arab Emirates for the different housing units forming part of its Jordan based projects. This announcement came on the heels of the signing of sales management agreements with both Aqarat.com corporation, based in Dubai, and Cornerstone based in Abu Dhabi.

This announcement coincides with TJH's second consecutive yearly participation in Cityscape Dubai, where it is displaying four different aspects of real-estate development at its booth. Each project on display is set to reflect a different developmental concept. Ahl Al Azm, exemplifies the large scale, well-planned, modern residential city, while the Andalucia project represents Jordan's first example of a fully serviced gated community. Boasting the concept of a second family home, the Red Sea Resort project is a successful example of the residential tourist resort ; and Mansion Hills, located on the southern shores of the portal city of Aqaba, is a multi purposed integrated tourist project. Lastly, TJH is also exhibiting Gardens Villas, located in Madinat Al Sharq in Zarqa, as a luxurious residential suburb. And together, these concepts highlight TJH's diverse operational directions.

Taameer Jordan Holdings Deputy CEO for Marketing and Sales said, "We, at TJH, are always keen on participating and on being actively present amongst our regional peers in events as prominent as Cityscape, as this exhibition falls in line with our strategy for enhancing our pioneering position in the region and also with our plans to increase interaction with our active UAE based customers. We are also working towards attracting new customers to our current and future projects. Our decision to appoint sales agents based in the United Arab Emirates is one aimed at increasing levels of communication with our customers in the market. This will also help us form strategic partnerships on both regional global levels which in turn will lead towards attracting attention to the powerful Jordanian real-estate market,"
