SEATTLE, WA, October 11, 2008 **/24-7PressRelease/** -- Honestflorist.com is announcing their soon to be launched website. This innovative site will offer top quality flowers delivered right to your door at a cost that is better than many other places. Honestflorist.com will offer a massive variety of fresh flowers as well as silks and potted plants. They guarantee that all of the flowers delivered will be beautiful and long lasting.

Honestflorist.com is different than many other services online as well as off. This company is tightly controlled throughout every part of their process. From the flower choices, to the quality arrangements, honest florist takes pride in all that they do. The consumer will enjoy the prices as well as the timely deliveries as well.

Whether there is a special occasion or you just want to send a special message to someone, flowers have always been a great choice. Flowers are sent to people for wonderful occasions such as the birth of a new baby, to celebrate a holiday and even just because. In business situations, flowers are sent as a thank you. There are many different florists and websites in which you can choose from, however, if quality and the impression in which the consumer is attempting to portray are important to you, then there is only one place in which will accommodate the needs. That site is honestflorist.com.

Honestflorist.com is launching their new website in the coming weeks and will offer a large selection of bouquets, arrangements and plants to suit any occasion. All of the plants and flowers offered are hand picked for quality and designed by a professional florist. They are then delivered to the address in which has been provided in a timely manner. All of the products offered on this site are guaranteed to offer beauty for at least a week from the time of receipt. To order your special occasion flowers please contact us at www.honestflorist.com and find the florist of your dreams.

Delivery areas are unlimited with this site as honestflorist.com offers their services all over the United States. This is done through the careful networking of this company with local honest florists in your area. This service is very similar to the FTD type of ordering and delivering without the up charges. The local florists have agreed to provide a discounted rate to provide the best possible service, timely delivery, and best price on the market. This has been proven to be beneficial to the local companies as well as the consumer. The local companies actually gain business in this way as well. However, this company is selective in the businesses in which they work with. They pride themselves on quality service, price and value to the consumer.

Currently, honestflorist.com is adding additional local florists to their already large network. They are looking for honest florists in which have the consumers' interests at heart. If your company can offer top quality service and are willing to operate to the code in which this company has designed, then honestflorist.com would be more than happy to talk to you.
