BEVERLY HILLS, CA, October 11, 2008 **/24-7PressRelease/** -- Every criminal defense lawyer with Terani Law Firm is pleased by our new website, [www.criminalattorneyusa.com](http://www.criminalattorneyusa.com), that details our criminal defense law firm. We are proud to offer our website to those looking for a dedicated and experienced domestic violence attorney, juvenile crime lawyer, robbery attorney, or those accused of any other crime from misdemeanors such as petty theft to felonies such as molestation or embezzlement. We provide excellent legal defense for those who need a robbery lawyer or assault attorney, or those charged with any violent crime or white collar crime, while also providing the best legal counsel for anyone who needs a child abuse lawyer or domestic violence lawyer.

Our website introduces you to the areas of practice that we passionately defend, whether it's white collar crime where an embezzlement attorney is needed, or if you need the services of a molestation lawyer who can strongly and capably defend you. We have specific pages that feature some of the criminal charges for which we provide a solid legal defense, but we are experienced and qualified to represent anyone accused of any criminal act.

Our knowledge of the criminal legal system and our relationships with prosecutors and judges you may be facing gives us a distinct advantage. We know how to present your case solidly, whether we're functioning as your rape attorney, battery lawyer or petty theft lawyer. We know both the law and the ins-and-outs of how to argue your defense in the strongest possible way, and those who choose us to act as their computer crime attorney, domestic violence attorney or drunk driving lawyer know their defense will be favorably received.

Our website, [www.criminalattorneyusa.com](http://www.criminalattorneyusa.com), in addition to discussing the advantages of having a school campus crime attorney or the penalties you are likely to face if you need a drug sales lawyer or drug possession lawyer, offers reassuring introductions to our team of highly qualified attorneys, many of whom have decades of experience as criminal defense lawyers. We provide a simple way to contact us for an initial consultation where your particular case can be discussed with respect and confidentiality. Our only purpose is to make sure that all of your rights are fully defended, and we'll do our best to fully investigate the charges against you and to present them in a convincing way.
