Re-invent Launches Windows 2008 Hosting

Web Hosting Provider Re-invent Technologies announces the launch of Microsoft Windows 2008 Hosting in its advanced shared hosting environment as well as celebrating its 10th year in business.

DOUGLAS, MA, October 11, 2008 **/24-7PressRelease/** -- Windows Server 2008 is the most advanced Windows Server operating system yet, designed to power the next-generation of applications and Web services. With Windows Server 2008 customers can develop, deliver, and manage rich user experiences and applications.

Windows Server 2008 contains many new improvements and enhancements such as: IIS 7.0, FTP over SSL, PHP5, Control Panel Pipeline mode selector and other improvements to reliability and manageability.

About Re-invent (<http://www.re-invent.com>)

Re-invent offers an advanced Windows 2008 and 2003 shared hosting infrastructure with features including SQL 2008 / SQL 2005 hosting, ASP.NET 3.5, 2.0, 1.1 Hosting, ASP.NET AJAX, LINQ, Silverlight compatibility, DotNetNuke hosting, Community Server hosting, ASP.NET Starter Kits and much more. Re-invent since 1998 has been 100% committed to reliable and responsible hosting at competitive pricing while continually offering new technologies, services and innovations to our customers.
