**Victory Financial Services helps out clients during market scare**

*James Hait's Victory Wealth Management, Inc. is a boutique financial advisory firm who helps their clients gain clarity about what's truly important to them.*

MONTREAL, QC, CANADA, October 11, 2008 **/24-7PressRelease/** -- James Hait's Victory Wealth Management, Inc. is a boutique financial advisory firm who helps their clients gain clarity about what's truly important to them. Victory Wealth helps its clients set goals with target dates, and they implement a structured approach that assures predictably optimal results.

Some of his clients call him their "Personal Chief Financial Officer," others a "Life Coach who specializes in money." One of his clients, a world-renowned horse trainer, even calls him, "The Money Whisperer." With today's volatile stock market, James offers some advice to achieve the highest probability of success: He suggests long term and short term goals that are achievable. Do not spread yourself too thin. "Work ONLY with a Trusted Advisor (preferably by referral from a friend, college or loved one), have a plan, implement the plan, stick with the plan at ALL times, turn off the TV, stop paying attention to the news, and focus on what you CAN control."

No matter what's happening in the world, economy or market, Victory Financial helps its Clients achieve their highest level of success through the implementation of sound, long-term financial strategies. In today's economic climate - a pending election, the Dow plummeting and the credit crunch - James and his team are able to recognize what the trends are and guides and empower his clients to help them achieve their goals and inspire them to explore and enjoy an improved quality of life.

James prides himself on having what he calls his 'ideal client profile' which are clients he believes will benefit most from what his firm has to offer. "Once we are serving 70 Ideal Clients, we will close our doors to any new business," says James. "Since we're keeping our Client Community so small, why not ensure that all of the Clients are really great people that we really want to work with and who really want to work with us?" said Hait. The Ideal Client who receives the most benefit from Victory Wealth Management, Inc. has the following qualities:

- They are financial delegators
- They are passionate about achieving their goals - both financial and personal
- They enjoy simplicity
- They value our work together
- They focus on what's important
- They can handle the truth

"Our mission is to guide and empower our Clients, to help them achieve their goals, and inspire them to explore and enjoy an improved quality of life. Our job is to hold everyone on our team accountable to do the effort required to achieve our mission, even our Clients."

James launched Victory Financial Services website last month by teaming with Logobee.com to come up with an easy to navigate website that allows its clients to navigate through the site and find out all they need to know about the market. "Our Clients trust us. Our phone hardly rings, no matter what the market is doing" says James.

"Our clients have the ability to access their accounts via our website, however, looking at the internet stats, they rarely do since we take care of them so well (cool, eh?). I will say this: our website does add a tremendous amount of clout to our brand. We have decorated our entire office to match the colors of the website. "

"Man, I love my work!" declares James
