Movie Predicts Stock Market Crash

The recent turmoil in the US financial markets is eerily similar to the plot of "Capitalism - The Movie"

DEVON, UK, October 11, 2008 **/24-7PressRelease/** -- The film, available on DVD at Amazon.com follows the exploits of two unlucky stockbrokers.

"The co-incidences are startling," says producer Stu Harrison. "Even though the film was written back in 2005, there are a lot of similarities with the current climate."

The comedy, which was partly filmed in Cuba, includes a scene of a Wall Street crash. "The main story is how these guys try to hustle their money back" says Harrison.
