

## **Despite Economic Woes There's Still A Silver Lining! People Don't Have To Curtail Their Travel Plans!**

October 11, 2008 /EIN News/ -- Despite Economic Woes There's Still A Silver Lining! People Don't Have To Curtail Their Travel Plans!

Because of the economic woes besetting the world lately you should not have to curtail your vacation plans! We at Global Resorts Network (GRN) are in the business to provide you with the finest resorts around the world at greatly reduced prices. We have a great selection in excess of 5,000 resorts worldwide. GRN is continuously searching to add more exclusive resorts to its vast array of inventory of resorts, striving to continue to please our faithful members.

We at GRN are over twenty (20) years in the 'Luxury Resort' business and due to our exclusive program, availability and flexibility, are growing at a phenomenal rate.

What is our purpose and what do we have to offer to our members?

Our purpose is to provide exceptionally high quality resorts throughout the world by using a "luxury resort membership" concept. What do we mean when we talk about a luxury resort membership? This is a brilliant concept in vacationing; by offering a lifetime of holiday luxury through one of the world's largest online registry (GRN) of luxury resorts. As a member, you have a personnel access pass to a world of enjoyment from luxury resorts at top rated golf courses, to exotic bungalows settings overlooking the ocean, our members love this approach of vacationing.

We provide two (2) types of memberships. For more detailed information on these memberships visit: <http://www.PrimeVacations.info>. This is not a Time Share! As a member of GRN you can go on vacation whenever, wherever and how often you please!

How do we define a luxury resort? These are beautiful 4 and 5 Star luxury properties with all the luxuries and amenities you can imagine. We are proud to offer high-end resorts, such as Sheraton, Wyndham and Hilton just to name a few, providing our members with accommodations that have gorgeous bedrooms, big living rooms, full kitchens and spacious balconies overlooking the ocean.

Availability of Resorts with world-class golf courses and/or breathtaking views of the mountains. Many of these resorts are only available otherwise through a timeshare purchase.

You may ask: "How am I going to use my membership?"

Our Automated Membership Guide will show you how to locate and select from an extensive range of top-quality vacations and travel opportunities around the world. It will direct and assist the member in procedures for booking and confirming member's reservation(s). Booking exiting vacations is through our interactive website offering the latest in innovative technology including: user friendly features, member directed services, latest advances in internet security such as membership IDs and Passwords that provide member's access to the website. And, don't worry, when needed you can even talk to a live person who can help you with your reservation and future vacation plans!

To bring our members and prospective members up to speed we provide a 'Live Product Demo and Business Plan' and 'Weekly Training Calls' to make sure that our members can start using this excellent service as soon as possible! You can watch this by registering at: <http://www.seeitliveonline.com>. After watching this website and you decide to become a member, representing a great "money saving" opportunity, you can click on either one of the other links!

Once the member accesses the web site he/she can browse at leisure for the next vacation experience. At the heart of our website is the communication center, you as a member having a personal and direct link to us; you've access to over 5,000 destinations.

Therefore, you and your family wish for and deserve to get away on an exotic vacation and leave the daily worries behind without any additional worry such as, how to pay for this vacation. That is the purpose and GRN's concept to offer vacations so affordable without jeopardizing the quality of the resort and to eliminate an excessive vacation cost!

This is our aim and motto to ensure our members get away from all the pressures and partake in vacations to enjoy and revitalize themselves. GRN assist you in any way from flight reservations to bookings that the members' vacation will be a memorable one!

Our office is not just in the USA, but on other continents also. We have offices, just to name a few, in Singapore, Spain, UK, Mexico and Canada. We want to be and it is our duty to be available at any time for our valued members.

We are committed to offer the best that is available on the market today at very "reasonable" prices, without jeopardizing quality. Prices nowhere else to be found for top quality resorts that are at our disposal!

And again, we are dedicated to make available to our members computer access upon becoming a member and provide training how to access the program, find resort availability and prices. The program will show additional resort availabilities, namely "Hot Weeks" at even further and drastic discounted rates resulting in even greater savings! Additionally, as part of the Membership a newsletter will be send to inform the members of any specialties being made available!

Another very attractive aspect available to our member or prospective member is that if he or she so desires can become an 'Affiliate' to promote our membership and is thereby eligible for commission(s)! This concept is very rewarding for the person who intends to get involved in this program and for more information can check out website: <http://www.A-Platinum-Income.com>.

To join GRN and be part of this exclusive membership please visit: <http://www.PrimeVacations.info> and/or <http://www.A-Platinum-Income.com>.
