Enchanting offers in Logo Design Packages at Mysitelogo!

Mysitelogo is one of the best online logo maker and designer in the logo design services. The logo design packages come in six numbers and they are the basic, professional, premier, corporate, deluxe and the ultimate packages.

LAS VEGAS, NV, October 12, 2008 **/24-7PressRelease/** -- Mysitelogo , a pioneer in logo and graphic designs has come up with great variety of logo design packages. This site has been offering world class high quality logo designs for some time now. The site has carved a niche for itself in the logo design services and has been offering great services to many businesses across the world. The logos designed by the team help in taking your business to great heights. This is what the site promises to its customers.

Depending on the number of designers one wants to work on their logo and the number of logo concepts they need one can choose from the packages available which range from a low-price to a comparatively higher price. Mysitelogo offers the best logo design prices in the industry. The site is offering six design packages from which one can have their choicest picks basing on their needs and their financial expense capability. They come in the form of basic package, professional, premium, corporate, deluxe and ultimate packages. Depending on the package selected, the designers, logo concepts and revision rounds vary. The logo design prices that the site is offering is one of the most competitive price starting from a lower band of \$89 to a higher band of \$999. But the best part comes here where the price on the ultimate package has been slashed to just \$799. Pay less to get more service from one of the best service providers in logo designing.

Most affordable of the entire lot coming at a starting price of just 89\$, is the basic package where you will work with your idea along with one of their expert designer to create your logo. One could choose from two concepts that the designer had designed. There is an allowance of two revision rounds to incorporate any other changes and suggestions if need be before coming up with the final end result, i.e., your customized logo. The average time taken here to develop the professional logo design is just three days.

Coming at second in the logo design packages is the Professional package where if one needs some more extra help, then there are two expert designers working round the clock to give you the best logo to come up with four logo concepts from which one can have a pick. Under this category four revision rounds are allowed on the designed logo to incorporate any more suggestions and arrive at the final product. Premier logo design package is unlike the economical packages. Here there are three expert designers to make your dream come to life. So this package comes at \$199 with six logo concepts to make a final choice and unlimited revision rounds to get the ultimate image of the logo that you have in mind.

The corporate logo design package comes at industry competitive price of \$289 wherein four expert logo designers work diligently to create around eight logo concepts from which the customer gets to have his choice. This package also comes along with unlimited revision rounds to include all the inputs and suggestions you have to offer and ultimately come up with a product of your liking. An additional attraction that comes with this package is that of FREE business card design incorporating the new logo. This comes with two concepts and six revision rounds for the business cards.

The customer gets a full logo solution at industry competitive price of \$399 in the deluxe logo design package. A talented team of five expert logo designers work on your requirement and come up with ten logo concepts out of which you could choose the one that suits your requirement. Unlimited revision rounds are allotted to get the ultimate quality in the end product. This package brings with it a double bonanza for the customer. Free stationery designs and free business cards with the professional logo design. You can receive custom business cards, letterhead and envelope designs incorporating the company's new logo. The stationery design comes with three concepts and six revision rounds from which one can arrive at a final selection.

Last and the best package is the ultimate logo design package where six expert logo designers' panel works closely with you to create around 12 concepts. Unlimited revision rounds are allowed till the final logo is created. This package comes with a triple bonanza. The site offers free website designing where five WebPages are designed by two of their website designers who will create two concept designs and provide two revision rounds. Free stationery design receives custom

business cards, letterhead and envelope designs incorporating the company's new logo. This comes with four concepts and eight revision rounds! Free one thousand custom business cards and free one year web hosting!

The entire logo design is a five stage process. Choosing on the best package that suits your needs will take you further to the design brief stage where a rough design is arrived at and later the initial logo concept is created. Amongst the choice of the creative logos you zero down on one and create the perfect logo.

My site logo is just one pill stop which can solve many a problems. Apart from designing quality logos for the corporate, Mysitelogo also designs great websites, brochures, business cards, stationery, and banners all which have a direct bearing on the success of the company. With a highly informative and a customer friendly website its efficient designers strive to bring out your dreams into shape. Check out their logo gallery to have a look at the stunning logo designs they have offered to small start-up internet companies to large online enterprises.
