Brett Burney White Paper on Litigation SaaS Released

Paper addresses key questions asked by small- and medium-sized firms when evaluating online litigation support applications

AUSTIN, TX, October 12, 2008 **/24-7PressRelease/** -- Lexbe announced today that it has released a new white paper authored by Brett Burney entitled: "Is SaaS the Best Litigation Support Approach for your Firm?" In this paper, Mr. Burney compares traditional litigation support databases with the new generation of online software-as-a-service (SaaS) applications. In particular, he discusses:

- The increasing popularity of SaaS as a software delivery mechanism
- How SaaS-based litigation support applications compare with traditional litigation software like Concordance(TM) and Summation(TM)
- SaaS advantages for small and medium-sized firms, including advanced technology access and reduced cost
- How SaaS providers guarantee security and uninterrupted access
- Experiences of law firms using SaaS for litigation

This paper is available at Lexbe's website (<http://www.lexbe.com/hp/Request-Materials.aspx>).

Mr. Burney is the Principal of Burney Consultants LLC, publisher of the ediscovery info blog (<http://www.burneyconsultants.com/>), and the author of over 50 articles on legal technology. He focuses his time on bridging the chasm between the legal and technical frontiers of electronic discovery.

ABOUT LEXBE

Lexbe.com, which provides web-based litigation, document management and case analytics software. Document management features include full-text search, automatic optical character recognition (OCR) of PDF files, document sorting, retrieval and repository, native file review, metadata analysis, document coding, document encryption and off-line access. Discovery features include relevancy and privilege tagging, Bates numbering and automatic privilege log generation. Case analytics features include fact and issue analysis, case calendaring, tracking of case participants, deposition analysis, case research, fact tracking and dynamic chronology and timeline generation. Lexbe.com is offered on a software-as-a-service (SaaS) basis, so users can access Lexbe.com from any web-based computer without the need to install or maintain software. Lexbe.com is available starting at \$79/month, with no set-up, cancellation or individual user license fees. A free trial and online web demos are available at <http://Lexbe.com>.
