Purchase Order Organizer - Updated Database Solution for Tracking Purchase Orders.

Purchase order database management helps all kinds of companies and organizations to create, process, and track purchases.

SURREY, BC, CANADA, October 15, 2008 **/24-7PressRelease/** -- PrimaSoft PC announced today the availability of Purchase Organizer Pro for Windows. Organizer's intuitive interface and ready-to-use database templates make it easy to set up and use. In minutes, the Purchase Order Organizer will help you set up a contact database of your suppliers, an inventory database of products, and process your purchase orders.

Our purchase orders management solution is designed to help you with following activities in your business: - Manage information about all your suppliers and vendors. - Manage information about all products. - Process and track purchase order information.

"We are very excited with this database product" says Kosznik. "It's our first database with a new field type that simplifies complex database solutions. It allows us and users to create customized complex business databases in hours not in days or weeks."

Purchase Order Library Organizer Pro for Windows costs \$245 (US) plus shipping and handling, and is available from PrimaSoft PC. Network and site licenses are available. You can download a fully functional trial version of the software from the Info page: http://www.primasoft.com/pro_software/purchase_software_pro.htm
