SAN FRANCISCO, CA, October 15, 2008 **/24-7PressRelease/** -- San Francisco is known as the capital of the west coast in the United States. It is recognized as a top ten city with international influence in the economic system. Since the days of the Gold Rush, San Francisco has been turned into a major financial center of the West Coast. It is also one of the top ten destinations for conferences and conventions, offering a large range of prestigious hotels and world class convention facilities.

San Francisco is home to headquarters of many multinational banks, venture capital firms and Fortune 500 organisations. However, small businesses with fewer than 10 employees and self-employed firms are a majority in the city, making up 85% of the city's enterprises.

San Francisco rents remain high, yet leasing volume is down. Tenants remain cautious and awaiting an improved economic environment before committing to taking space. In the meantime, should you need a prestigious business address in Downtown San Francisco, virtual office solutions is the ideal answer.

To help tenants going through this period of economic downturn, this business center operator in San Francisco downtown is now offering Virtual office solutions packages for as little as \$99 for the initial 3 months agreement.

Included in the package are a large range of amenities, featuring local phone number and voicemail, a prestigious business address, mail collection and forwarding, call redirecting, color copying and printing and many more.

Also included in this package are 25 hours of free use of the private offices and conference rooms each month. This is one of the best west coast offers for virtual office solutions, \$99 only per calendar month.

Should you wish to get a prestigious business address in Downtown San Francisco, look no further and call Daniel Soffer on 888-989-0006, or email sales@sos-america.com
