**New Reports Help U.S. Manufacturers Develop Trading Partnerships With Italy, Portugal and Ireland**

*ForeignTRADEX, an industrial supply directory and international trade portal has launched a series of reports to help American manufacturers of industrial products export to several European countries*

WESTBORO, MA, October 16, 2008 **/24-7PressRelease/** -- ForeignTRADEX (<http://www.ForeignTradeExchange.com>), a US-European industrial directory and division of the Industrial Leaders Group announced today the launch of three new industrial trade reports designed to help US-based manufacturers and exporters of industrial goods develop business opportunities with industrial buyers and importers in Italy, Ireland and Portugal. The company said the publications are designed specifically to assist American manufacturers and suppliers of industrial supplies, equipment and machinery seeking to locate potential trading partners in Western Europe.

The three Industrial Reports are located at:

- \* <http://www.ForeignTradeExchange.com/countries/italy.html> (US-Italy Industrial Trade Report)
- \* <http://www.ForeignTradeExchange.com/countries/ireland.html> (US-Ireland Industrial Trade Report)
- \* <http://www.ForeignTradeExchange.com/countries/portugal.html> (US-Portugal Industrial Trade Report)

According to a ForeignTRADEX spokesman, Frank Wallace, the industrial reports, which are available in English, Portuguese and Italian languages were first published in 2001 and have been revised annually with the latest information and resources for American manufacturers seeking to target the growing markets of Portugal, Ireland and Italy. Wallace said the company recently revised the reports because of its belief in Western Europe currently being an important and strategic marketplace for U.S. manufacturers and exporters competing with growing Asian giants such as China, South Korea and Japan.

"US-based manufacturers and exporters of industrial goods and services will find the publications to be a useful resource for doing market research as well as generate business opportunities with Irish, Portuguese and Italian companies," said Wallace. He concluded, "American industrial suppliers serious about entering or expanding overseas will find Italy, Portugal and Ireland to be prime markets offering numerous trade opportunities for the U.S. manufacturing community involved in producing machines, equipment and supplies for the industrial marketplace."

**About ForeignTRADEX**

ForeignTRADEX.com is a US-European Industrial Trade Directory and Marketplace connecting manufacturers, distributors, exporters and importers of industrial products throughout Europe and the United States, as well as Canada, Australia and New Zealand.
