Encryption Solutions, Inc. - Capital raise continues

October 04, 2008 **/EIN News/** -- Encryption Solutions, Inc. - a technology developer has recently closed out Series C funding. Encryption Solutions, Inc. continues to seek capital and has secured over \$4 million in funding to date. Encryption Solution, Inc. currently has technology for sale and clients include L3 Communications and the US Air Force. SkyLOCK encryption is an ideal security solution to protect data on laptops, computers, thumb drives, PDAs, etc. SkyLOCK seamlessly integrates with existing systems to secure data and allows you to manage information security and maintain security policies and compliance.

ESI's SkyLOCK encryption products safeguard data for all types of users. With patented unique data IDs and multiple layers of encryption, your data is secure. File level encryption ensures protection, even when your desktop is unlocked. From encrypting enterprise backup data, to saving information on a thumbdrive, ESI's encryption offers you a safe, efficient, easy-to-use solution to securely transport and store data.
