MEDELLIN, COLOMBIA, April 05, 2013 **/24-7PressRelease/** -- 1tucan, a leading mobile application and game developer, is excited today to announce the launch of Potty Training onto the App Store. Compatible with most iPhone, iPad, and iPod touch devices, this unique children's education utility helps youngsters get in the zone and learn how to go to the bathroom while keeping the mood light and happy. The app is structured as a straightforward game, and tastefully imagined to ensure that there's no potty humor involved in potty training. Giving kids the opportunity to help cute cartoon animals go to the bathroom on time this mobile learning aide teaches by example and sits primed to make parents' adventures to potty train their young ones as easy and headache free as possible. Potty Training is currently available for download for \$1.99 on the App Store in the Education category.

The goal of this app is a simple yet important one - help toddlers understand the concepts involved in going to the bathroom, and getting them potty trained as quickly as possible. Taking a game themed approach geared to endear young users and get them engaged, Potty Training challenges kids to make sure common animals including Dogs, Lions, and Chickens among others get to their bathrooms when its time for them to go do their business. The game comes complete with some fun simple stories, and always keeps appropriate potty etiquette at the forefront to ensure that kids aren't simply having a blast but learning to understand why they themselves should go use the bathroom on time too.

A well-rounded app, Potty Training features hands-on gameplay and an empathetic aesthetic to get the oftentimes messy job of helping children use the bathroom like adults, complete with professional voice narration throughout, calming lullaby music, and beautifully rendered graphics. Users have the option of playing either as a boy or girl, while intuitive controls ensure that even the youngest of users can get a handle on how to play the game without hassle. Don't let potty training be the anxiety soaked process it once was, lighten the mood and get an extra educational tool in your corner with Potty Training today.
