

## Cosmetic Dentistry Services In Kissimmee Enhance A Patient's Smile And Confidence

*Dr. Adel Mansour, a dentist in Kissimmee, FL, provides cosmetic treatments for patients seeking smile improvements.*

KISSIMMEE, FL, July 19, 2014 **/24-7PressRelease/** -- The appearance of healthy teeth is associated with the ability to attract a partner or even to get a new job. However, even if a patient's teeth are healthy on the outside, they may not always appear healthy on the inside. That's why Adel Mansour, DDS, offers cosmetic dentistry procedures at his Kissimmee, Florida dentist's office.

Cosmetic dentistry is a dental discipline that focuses on improving a smile's appearance through interventions such as bonding, teeth whitening, crowns, bridges, cosmetic fillings and much more. With advances in dental procedures and approaches, numerous ways exist to transform a patient's smile.

A common, non-invasive procedure Dr. Mansour performs is professional teeth whitening. This procedure can take years off a patient's smile by removing stains that can make a patient appear older. Professional teeth whitening offers more dramatic results than over-the-counter whitening, which typically only whitens teeth one to two shades. Professional teeth whitening not only removes tougher stains, it also can whiten teeth anywhere from six to eight shades lighter.

Patients with concerns over individual teeth can benefit from a number of procedures that re-shape teeth. For example, bonding is a process that involves using tooth-colored material to re-shape the teeth or conceal stained areas.

If you desire more dramatic results, cosmetic procedures Dr. Mansour offers at his Hunters Creek dentist office include crowns and dental veneers. Crowns are custom-made coverings that can conceal highly damaged and/or decayed teeth. Dr. Mansour prepares crowns not only to individual teeth, but also to attach bridges to replace a missing tooth, cover dental implants or repair a tooth after a root canal. Dental veneers are an option for covering and concealing the front portion of the teeth. This is ideal for patients with highly stained, gapped, uneven or chipped teeth.

Sometimes Dr. Mansour can perform multiple cosmetic procedures to revitalize a smile.

"I often recommend patients make an appointment for a cosmetic dentistry consultation," says Dr. Mansour, a dentist serving Hunters Creek, FL and Kissimmee, FL. "They can share their concerns about their smile, and I can explain available options to them to determine the best option for making them proud of their smile."

To learn about additional cosmetic dentistry service Dr. Mansour offers or to schedule a cosmetic dentistry consultation with Dr. Mansour, please call (407) 483-9990.
