

Free Terminal Program for the Lodging Industry

If you operate a hotel or motel with 100 rooms or less, we have the perfect credit and debit card processing solution for you! The Verifone Vx 570 terminal has been specially programed to deliver the features you need including:

- Dual Com - use with a dial-up (telephone land line) connection or an internet IP connection.
- Check in/Out - Reserve the room for your customer with their credit card, then quickly check them in and out.
- Alternative Card on Check Out - Allows the customer to provide a different card upon check out.
- Quick Stay - Take care of your customer's bill in one simple step.
- Incidental Charges - Let's you bill your customer's incidental charges on a different credit card.
