

More Creativity, More Freedom PHYZIOS Studio Pro Beta Available on Mac

On January 21st, Physios, Inc. released a beta version of PHYZIOS Studio Pro, which enables you to handle highly complicated physics simulation. This beta version is available for free for the next 30 days (through February 21st) only on Mac. The Windows version will be released soon.

What is PHYZIOS Studio?

PHYZIOS Studio is a web-based application in which you can enjoy art scene creation and games (both gameplay and level design) in a physically simulated environment and share those artworks and games with other users around the world. This application is an upgraded version of "OE-Cake!" that was well-received at GDC in 2008 and hit more than 80,000 downloads. Its iPhone version, PHYZIOS Studio for iPhone, ranked 9th among free applications in Japan.

What is PHYZIOS Studio Pro?

PHYZIOS Studio Pro is a client application which enables you to experience highly complicated physical simulation.

1. Customizable Materials

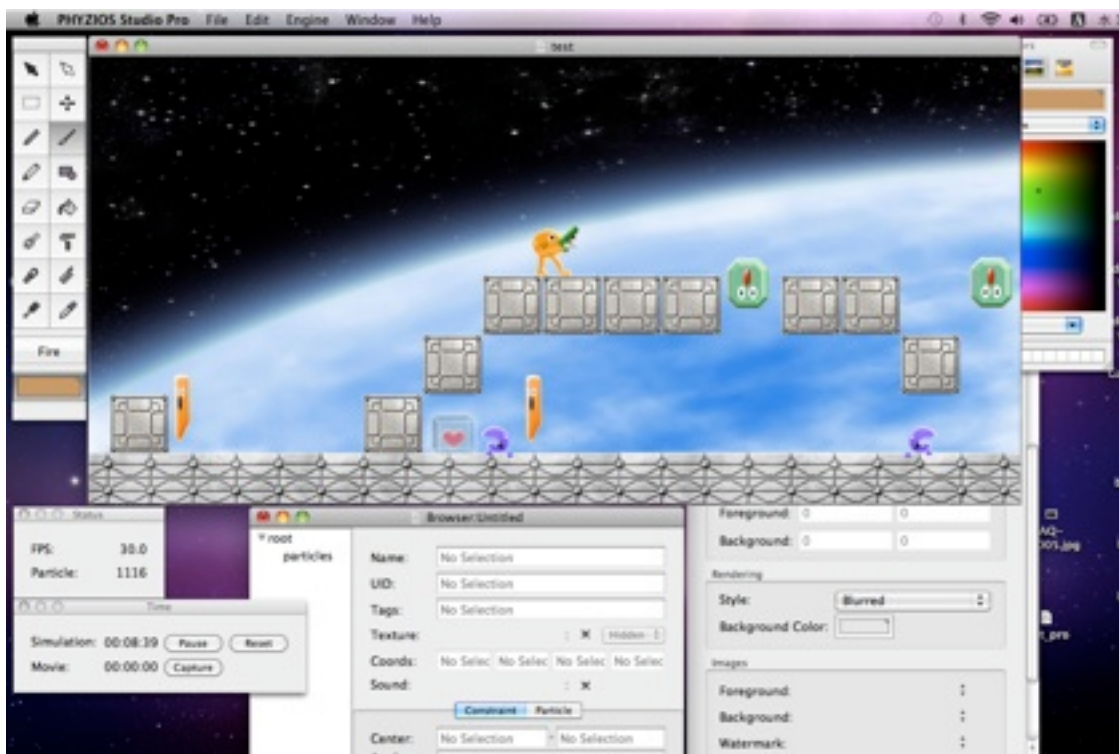

Unlike PHYZIOS Studio you can add multiple characteristics to one material to create your own materials.

2. Variable Resolution

By changing resolution of particles and the screen, you can create simulation movies of various sizes.

Screen Resolution

By changing the screen resolution, you can control the size of simulation area.

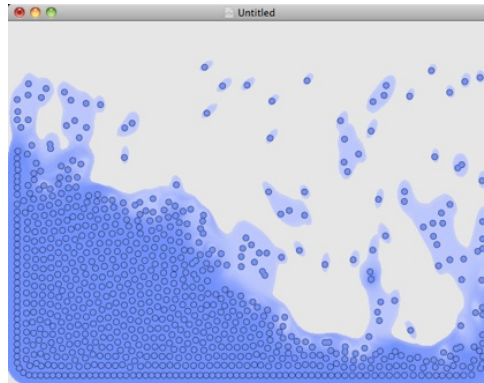

Particle Resolution

You can also freely change resolution of particles.

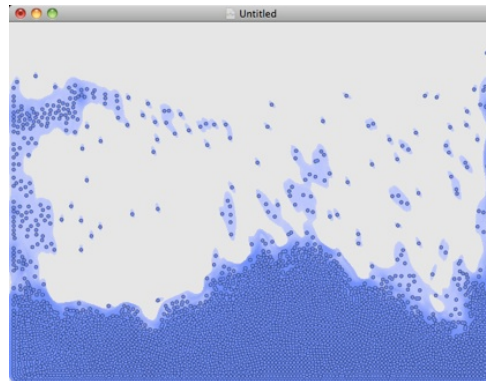

Low Resolution

The more you reduce the number of particles used in the screen, the more the simulation becomes.

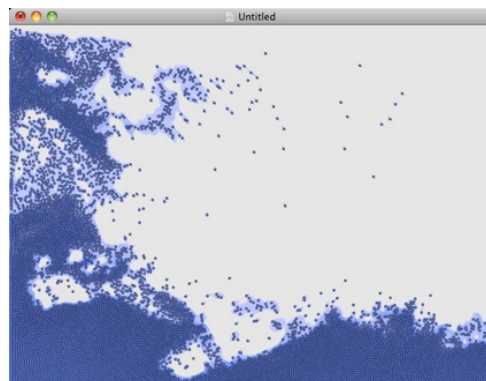

Medium Resolution

Using smaller particles provides more detailed simulation.

High Resolution Level

Using further smaller particles provides further more detailed simulation.

Phyzios, Inc. is a start-up software company located in the University of Tokyo, Japan's most prestigious institution. Since its start in January 2009, Phyzios has released three iPhone/iPod touch applications, all of which ranked top 10 in respective categories in App Store (Japan), including Jazz Sculptor, which ranked No.2 free application in Japan and No.1 in Italy. Phyzios Inc is a spin-off company of Prometech Software, Inc.. At the time of Prometech Software Inc., our team released OE-Cake! and AQUA FOREST. OE-Cake! is a 2D multi-physics engine, whose core technology is from "Phyzios Engine" (old "OctaveEngine™ Casual") that left an impression at Game Developers Conference in 2008. AQUA FOREST has been a smash hit iPhone/iPod touch application since its release as one of the launch titles of apple's App Store in 2008. For more information about Phyzios, visit the company's website at <http://www.phyzios.com/eng/index.html>.
